PHOTOS Photography is done for two issues at a time, which is why the due dates are set up this way. If you can furnish hi-resolution photos (see specs below), projects themselves will not need to be sent. Digital Furnished Photos must be 8"x10" and 300 dpi JPEG or TIFF (or equivalent size/resolution). RGB preferred but CMYK ok. Because of file size, they must be mailed on a CD, not sent as e-mail attachments. Reflective art and 4 x 5 transparencies are also acceptable.
